Dear Brad:

Re: Third Work Plan Supplement
Manville Remediation Site
Waukegan, Illinois

We have enclosed two copies of the final Third Work Plan Supplement. This draft has incorporated USEPA and IEPA comments as set forth in your letter of June 20, 1991 (comments 1, 2, 3, 4, 5 and 7). As discussed with you on June 26, 1991, Manville is unable to agree to a 60-day time limit for completion of the work specified in the Third Work Plan Supplement. It was, therefore, mutually agreed that a 90-day schedule was acceptable to USEPA and the Third Work Plan Supplement reflects this change.

I wish to confirm that you believe that USEPA formal approval of the Third Work Plan Supplement will be received by Manville no later than July 8, 1991 and that you have requested that seven days notification be provided to you prior to commencement of any work in Areas Y and Z, excepting, of course, the surficial cleanup which is presently ongoing.

Please call if you have any questions.

Yours truly,

CONESTOGA-ROVERS & ASSOCIATES
